

## Enterprise Expands Bank Facilities to \$4.5 Billion

June 20, 2013

HOUSTON--(BUSINESS WIRE)--Jun. 20, 2013-- Enterprise Products Partners L.P. (NYSE:EPD) ("Enterprise") announced today that on June 19 its operating subsidiary, Enterprise Products Operating LLC ("EPO"), expanded its bank credit facilities to provide the company with an aggregate of up to \$4.5 billion of borrowing capacity. The facilities are comprised of an amended \$3.5 billion multi-year revolving credit agreement that matures on June 19, 2018 and a new \$1.0 billion 364-day revolving credit agreement. EPO's obligations under both facilities are unconditionally guaranteed by Enterprise on an unsecured and unsubordinated basis. As of today, aggregate available liquidity under the bank credit facilities is approximately \$4.5 billion.

"We are very pleased with the continued strong support from our bank group. We expect these facilities will provide the liquidity support and financial flexibility to execute our current and anticipated growth plans," said Michael A. Creel, chief executive officer of Enterprise's general partner.

Enterprise Products Partners L.P. is one of the largest publicly traded partnerships and a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, refined products and petrochemicals. Our services include: natural gas gathering, treating, processing, transportation and storage; NGL transportation, fractionation, storage, and import and export terminals (including LPG); crude oil and refined products transportation, storage and terminals; offshore production platforms; petrochemical transportation and services; and a marine transportation business that operates primarily on the United States inland and Intracoastal Waterway systems and in the Gulf of Mexico. The partnership's assets include approximately 50,000 miles of onshore and offshore pipelines; 200 million barrels of storage capacity for NGLs, petrochemicals, refined products and crude oil; and 14 billion cubic feet of natural gas storage capacity.
