

Enterprise Releases 2019-2020 Sustainability Report

July 29, 2020

HOUSTON--(BUSINESS WIRE)--Jul. 29, 2020-- Enterprise Products Partners L.P. (NYSE:EPD) today announced that its 2019-2020 Sustainability Report is now available on the company's website at <https://www.enterpriseproducts.com/2019-2020-sustainability-report-viewer/>. This comprehensive report provides in-depth information on environmental, social and governance ("ESG") topics pertaining to Enterprise's business activities.

Among the areas covered in the report are: key environmental performance metrics; risk management; emergency preparedness and response; alignment of company and stakeholder interests; and the safety and integrity of Enterprise's integrated midstream network, which plays a vital role in ensuring energy security.

The report also spotlights the company's most valuable asset—its people. Driven by innovation, creativity and an entrepreneurial spirit, Enterprise employees are dedicated to improving the company's financial, environmental, social and health and safety performance.

"Sustainability has been the core of our business philosophy since we were founded in 1968, although it was not known as sustainability at that time," said Christian M. Nelly, Executive Vice President, Finance and Sustainability and Treasurer for Enterprise's general partner. "Today, our focus remains on maintaining a durable business model managed for long-term value creation with a commitment to our employees, the environment, the communities in which we operate, and the rest of the world. The ESG information contained in the sustainability report is designed to meet the growing interest from various stakeholder groups for more specifics on Enterprise's commitment to a sustainable future for the company and those we serve."

Enterprise Products Partners L.P. is one of the largest publicly traded partnerships and a leading North American provider of midstream energy services to producers and consumers of natural gas, NGLs, crude oil, refined products and petrochemicals. Our services include: natural gas gathering, treating, processing, transportation and storage; NGL transportation, fractionation, storage and export and import terminals; crude oil gathering, transportation, storage and export and import terminals; petrochemical and refined products transportation, storage, export and import terminals and related services; and a marine transportation business that operates primarily on the United States inland and Intracoastal Waterway systems. The partnership's assets include approximately 50,000 miles of pipelines; 260 million barrels of storage capacity for NGLs, crude oil, refined products and petrochemicals; and 14 Bcf of natural gas storage capacity.

This press release includes "forward-looking statements" as defined by the Securities and Exchange Commission. All statements, other than statements of historical fact, included herein that address activities, events, developments or transactions that Enterprise and its general partner expect, believe or anticipate will or may occur in the future are forward-looking statements. These forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from expectations, including required approvals by regulatory agencies, the possibility that the anticipated benefits from such activities, events, developments or transactions cannot be fully realized, the possibility that costs or difficulties related thereto will be greater than expected, the impact of competition, and other risk factors included in Enterprise's reports filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. Except as required by law, Enterprise does not intend to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.
